Subject Schedule for Omega Soil Gas Sampling

Chris - This is to confirm that we will start soil gas sampling this Monday, April 12th at 7 a.m. at the Omega site. We plan to start work Monday at Star City Auto Body and Medlin & Sons. I estimate it will take two days to complete the work. The boring locations have been marked and Dig Alert has been notified. I have signed permission from Medlin & Sons to collect the three soil gas samples (and subsequent indoor air samples) from their property. I will put a copy in the mail to you.

CDM field person will be Ms. Sibel Tekce, cell 714/335-1416.

Please call if you have any questions.

Regards, Sharon
